

GUIDEPOINT™

Enabling Operator
& Maintenance
Excellence

Informational topics for maintenance, operation and troubleshooting

Easy-access instructions, documents, drawings and schematics

Comprehensive guidance for changeover, issue resolution and more

Fault and performance dashboards to diagnose issues and improve productivity

Productivity to GO

GuidePoint™ offers a game-changing alternative to traditional manuals and machine documentation. With its interactive and user-friendly interface, GuidePoint equips operators and maintenance personnel with comprehensive content at the point of need.

- ✓ **Reduce** workforce skills gap
- ✓ **Increase** productivity
- ✓ **Minimize** downtime
- ✓ **Optimize** and sustain machine performance
- ✓ **Streamline** issue resolution and recovery time

Operation & Maintenance Support

Equip your staff with key operation and maintenance information, fostering knowledge and skill development that drives performance.

Efficient Parts Identification

Simplify parts identification with interactive assembly drawings that enable personnel to quickly locate and understand parts information.

Remote Support

Empower your team with connectivity and video conference tools that increase the effectiveness of remote support experts.

Detailed Changeover Guidance

Increase accuracy and speed of changeovers with step-by-step guidance, ensuring smooth transitions between production runs.

Recovery & Troubleshooting Guidance

Identify root cause and resolve issues quickly with triggered fault recovery info, camera options, and comprehensive troubleshooting.

Fault & Performance Dashboards

Improve performance using dashboard analytics, such as recipe, run and shift performance, changeover effectiveness, and common faults/downtime tracking.

Empower Your Workforce, Elevate Efficiency

You talked, we listened.

Tailored to address the unique challenges faced by consumer packaged goods manufacturers like you, every aspect of GuidePoint is crafted to support your team.

With 24/7 access to on-the-job information and assistance, GuidePoint supports your team with the right resources at the right time, improving the effectiveness of personnel and reducing training gaps.
